PLC-INTERFACE, integrated solid-state relay, with screw connection, for mounting on NS 35/7,5 DIN rails, input: 24 V DC, output: 12 - 300 V DC/1 A

#### Your advantages

- · Wear-free switching with no contact bounce
- · Resistant to vibrations and shocks
- · Protective circuit in input and output
- · Status indicator
- DC voltage outputs up to 300 V DC/1 A
- · Option of bridging adjacent modules

#### **Commercial Data**

| Item number                          | 2980678             |
|--------------------------------------|---------------------|
| Packing unit                         | 10 pc               |
| Minimum order quantity               | 1 pc                |
| Sales Key                            | CK6                 |

#### **Technical Data**

#### Product properties

| Product type                                      | Solid-state relay module          |
|---|-----------------------------------|
| Product family                                    | PLC-INTERFACE                     |
| Application                                       | With integrated solid-state relay |
| Operating mode                                    | 100% operating factor             |
| Insulation characteristics                        |                                   |
| Insulation  | Basic insulation                  |
| Insulation characteristics: Standards/regulations |                                   |
| Insulation  | Basic insulation                  |
| Ilisulation                                       | Baolo illocatation                |
| Overvoltage category                              | III                               |

#### Electrical properties

| Maximum power dissipation for nominal condition | 0.19 W |
|---|--------|
| Standards/regulations                           |        |
| Rated insulation voltage                        | 300 V  |
| Rated surge voltage                             | 2.5 kV |

#### Input data

| Nominal input voltage U <sub>N</sub>                          | 24 V DC  |
|---|--|
| Input voltage range in reference to $\mathbf{U}_{\mathrm{N}}$ | 0.8 1.2  |
| Input voltage range   | 19.2 V DC 28.8 V DC                                    |
| Switching threshold "0" signal in reference to $U_N$          | ≤ 0.4  |
| Switching threshold "1" signal in reference to $U_N$          | ≥ 0.8  |
| Typical input current at U <sub>N</sub>                       | 8 mA   |
| Typical response time   | 0.3 ms   |
| Typical turn-off time   | 0.7 ms   |
| Operating voltage display                                     | Yellow LED   |
| Protective circuit  | Reverse polarity protection; Polarity protection diode |
|   | Surge protection; Varistor                             |
| Transmission frequency  | 50 Hz  |

#### Output data

| Designation              | Output data   |
|--------------------------|---|
| Contact type             | 1 N/O contact   |
| Design of digital output | electronic  |
| Type of contact          | Power contact   |
| Output voltage range     | 12 V DC 300 V DC (Partition plate PLC-ATP must be installed for voltages larger than 250 V (L1, L2, L3) between identical terminal points in adjacent modules. Potential bridging is then carried out with FBST 8-PLC orFBST 500) |
